STEEL QUALITY 304 MEDICAL GRADE STAINLESS STEEL

MATRIX EHO

Special Features

Engineered for increasingly complex surgical scenes, Matrix EHO comes with extreme loads in any position. The modular structure enables it to be adapted to match the size of the patient and in no time at all it can be equipped for any surgical discipline. With the characteristics of high automation low noise and high reliability, Matrix EHO can be regard as an ideal electro-hydraulic operating table.

- The need for operating tables with higher load capacity is increasing worldwide.
- Extreme weight load capacity of 300 kg with highest safety and stability.
- Modular design tabletop tailored for various surgical discipline needs. The Easy click new mounting point enables the table adapted to wide variety of surgery and patient's height. Waterproof design. Mattress
- Standard override panel control makes the control safer.

Special Features

- We are providing SMPS based control box which can handle better Voltage
 Fluctuations, When SMPS is idle there is zero current consumption and saves
 power. These are as per new European and American standards where the idle
 power consumption should be zero and where transformer based system
 are outdated.
- We provide remote which is ergonomically designed to have an easy and better grip with spiral cable and it has LED backlit switch with symbolic position figures making it convenient to use even in the dark.
- We provide zero position facility i.e by pressing the single button OT Table will come to normal position.
- We provide patient reverse orientation mode when head and leg section are interchanged.
- We provide 2 memory function in control panel.
- We provide indication of battery back in the second handset.
- The Handset is designed with Back LED Indicator for better visibility.
- \bullet Head and foot section is manually operated by the means of Ratchet System.
- We provide Stainless steel Covered Base and Column Covers for easy cleaning and hygiene.
